

Paul A. Bonvallet

Department of Chemistry
The College of Wooster
943 College Mall
Wooster, OH 44691-2363

Telephone: (330) 263-2610
FAX: (330) 263-2386
E-mail: pbonvallet@wooster.edu

@PaulBonvallet

APPOINTMENTS AND EDUCATION

The College of Wooster, Department of Chemistry, Wooster, OH

2021–present Professor
2010–2021 Associate Professor (Department Chair 2016–2020)
2004–2010 Assistant Professor

University of California, Los Angeles

Department of Chemistry and Biochemistry and California NanoSystems Institute

2002–2004 Postdoctoral Fellow Advisor: J. Fraser Stoddart (2016 Nobel Laureate)
Design and synthesis of a “molecular muscle” from mechanically interlocked molecules

University of Wisconsin-Madison, Department of Chemistry, Madison, WI

2001 Ph.D. Organic Chemistry Advisor: Robert J. McMahon
Matrix Isolation and Computational Investigation of Naphthylcarbene Rearrangements

Kenyon College, Gambier, OH

1996 B.A. Chemistry (Physics Minor)
Phi Beta Kappa, *summa cum laude*, highest departmental honors
Advisor: Patrick E. O'Bannon; Research thesis *π -Selectivity and Reactivity in the Cyclopropanation of Substituted Propelladienes*

TEMPORARY APPOINTMENTS

2020-21 **Visiting Scientist**, University of Akron, Akron, OH
Sabbatical appointment for research collaboration with David Modarelli, Dept of Chemistry

2015-16 **Visiting Researcher**, ABS Materials, Inc., Wooster, OH
Sabbatical appointment for research collaboration

2010-11 **Visiting Assistant Professor**, Case Western Reserve University, Cleveland, OH
Sabbatical appointment for research collaboration with Stuart Rowan, Dept of Macromolecular Science and Engineering

2003 **Instructor** Mount St. Mary's College, Los Angeles, CA (taught General and Organic Chemistry)

PROFESSIONAL MEMBERSHIPS AND AFFILIATIONS

College Board / Educational Testing Services: Advanced Placement Chemistry Program
American Chemical Society
Council on Undergraduate Research
Phi Beta Kappa (Former president, Kappa of Ohio Chapter)

AWARDS, HONORS, AND NATIONAL SERVICE

2017-2021	Chief Reader, AP Chemistry Established and implemented scoring practices for 160,000+ AP Chemistry exams annually Authored exam questions and national curriculum as member of Test Development Committee Disseminated AP Exam results and advice to teachers via conferences, webinars, and reports
2015	Invited Speaker / Travel Award for “Small Splash, Big Waves” American Chemical Society Division of Organic Chemistry symposium for researchers in organic chemistry at primarily undergraduate institutions
2008	Division of Organic Chemistry Travel Award Supporting travel to ACS National Meeting in April 2008
2005	Cottrell College Science Award Research grant from Research Corporation for 2006-2008
2000	Sam Charles Slifkin Award, University of Wisconsin-Madison Competitive departmental fellowship awarded to senior graduate students
1998	University of Wisconsin College of Letters and Science Teaching Fellow Developed and conducted a training workshop for new teaching assistants. Eighteen award recipients were selected from a pool of 1,100 teaching assistants at the University of Wisconsin.
1998	Department of Chemistry Outstanding Teaching Assistant Award Recognition for excellence in undergraduate instruction, awarded to eight teaching assistants in the University of Wisconsin Department of Chemistry
1996	Samuel McElvain Graduate Fellow, University of Wisconsin-Madison Merit-based departmental award for first-year graduate students
1996	American Chemical Society Award, Kenyon College Awarded to an outstanding undergraduate senior chemistry major
1995	Phi Beta Kappa, Kenyon College (elected as Junior)
1992	Eagle Scout, Boy Scouts of America

MENTORSHIP OF UNDERGRADUATE RESEARCH

Senior Independent Study Advisees at the College of Wooster

Senior Independent Study is a yearlong self-designed research project in collaboration with a faculty mentor.

All majors are in Chemistry unless designated otherwise

57. David Evans '24
56. Nick Gaba '24
55. Connor Krucek '24
54. Aidan Mason '24
53. Rebecca Rogovich '24, Biochemistry & Molecular Biology (co-advised with Ellyn Evans)
52. Makeda (Maki) Teklemichael '24, Biochemistry & Molecular Biology (co-advised with Ellyn Evans)
51. Edwina Akonor '23, Biochemistry & Molecular Biology (co-advised with James West)
Porphyrin-based Photosensitizing Agents: Comparative Study on The Effects of TPP-sesamol and TPP-zingerone on Saccharomyces cerevisiae Yeast Cells
50. Ferdawss Ihiri '23 Graduate student, UCLA
Preparation of Porphyrin-PYBOX: A stepwise synthesis of functionalized diethynyl-bridged porphyrins for a potential application in solar energy conversion
49. Nina Catalfo '22 Chemistry workforce
A Year of N-Confusion: Determining Aggregation in N-Confused Porphyrins Using UV-Vis Spectroscopy
48. Holly McAnlis '22 Graduate student, Boston University
Synthesis and Photophysical Evaluation of Porphyrin-Natural Product Hybrids for Use in Photodynamic Therapy
47. Elijah Learn '20 Ph.D. candidate, University of Delaware
Cobalt Catalyzed Hydrosilylation of Terminal Alkenes for Synthesis of Bis(trimethoxysilylethyl)benzene
46. Chloe Litts '20 Ph.D. candidate, University of Illinois Urbana-Champaign
Exploring the Three-Dimensional Structure of Calix[4]arene-capped Azobenzenes Using VT-NMR, NOESY, and Computational Methods
45. John Nugent '20 Applying to medical school
The Impact of Solvent Viscosity on the Cis to Trans Isomerization of Calix[4]arene Capped Azobenzene
44. Sophia Rovenko '20 Production scientist, MilliporeSigma
Synthesis of O-nitrobenzyl Esters and Their Host-Guest Photochemistry
43. Samantha Adusumilli '19 Dental student, Ohio State University
Don't Go Chasing Water: Investigating the Role of Water on the Binding Strength of Dibenzo-24-Crown-8 and Dibenzylammonium Hexafluorophosphate

OUTREACH AND PUBLIC ACTIVITY

* Indicates invited presentation

- 14.* "From Coulomb's Law to Molecular Machines" *AP Daily* online lecture for Advanced Placement Chemistry students, Aug 2020.
- 13.* "Don't blame the turkey if you feel snoozy; the bread and the basket share molecular formula and other Turkey Day science" *Akron Beacon Journal* article, November 25, 2015.
- 12.* "Faculty Focus" segment on WCWS-FM radio, discussing the chemistry of Thanksgiving. (Nov 2015)
- 11.* **Bonvallet, P. A.** Race and Class in Medical Care. Cross-Cultural Connections Meeting, College of Wooster, Wooster, OH, Nov 2013.
10. Contributed material to Pierce, P.; Stavnezer, A. J.; Amburgey-Peters, J. C. Developing Students as Scholars, AAC&U Network for Academic Renewal, Providence, RI, Oct 2013 (Organic Chemistry examples of course-embedded research)
- 9.* **Bonvallet, P. A.** Preparing for Medical School. mGluRs (Neuroscience) Conference, College of Wooster, Wooster, OH, Sept 2012.
- 8.* **Bonvallet, P. A.**; Constance, C.; Wright, E. Preparing for Medical School. mGluRs (Neuroscience) Conference, College of Wooster, Wooster, OH, Oct 2011.
7. Mentioned in "Listen Up, Pilgrims: Tryptophan Is Not What's Making You Sleepy," and article in *The Chronicle of Higher Education* (Nov 21, 2010) about Wooster's annual Chemistry of Thanksgiving lecture.
- 6.* **Bonvallet, P. A.** Thought, Word, and Deed: The Connections Between Faith and Professorship, St. James Church, Wooster, OH, Dec 2007.
5. Quoted in "The Pilgrimage Home," an article in *Inside Higher Ed* about teaching classes before Thanksgiving break (Nov 21, 2007).
- 4.* **Bonvallet, P. A.**; Wilson, M.; Solensky, M. Teaching the Paranormal in First Year Seminar. Science Round Table, Wooster, OH, Jan 2007.
3. **Bonvallet, P. A.**; Amburgey-Peters, J. C. The Chemistry of Thanksgiving Dinner (featured locally by *The Plain Dealer* and WKSU radio and nationally in *Chemical and Engineering News*), Wooster, OH, Nov 2006 & 2007.
2. **Bonvallet, P. A.** Is there a math and science deficit in America? Science Round Table, Wooster, OH, Feb 2006.
1. **Bonvallet, P. A.** High Tech Research. Televised faculty profile on Campus Close-Up cable television program, Feb 2006.

FUNDED EXTERNAL RESEARCH GRANTS

8. "REU Site: Physics and Chemistry Research at Wooster," (John Lindner, Susan Lehman, PIs; **Paul Bonvallet**, Laura Degroot, Cody Leary, Niklas Manz, Senior Personnel) NSF-REU DMR-1852095, \$326,132; April 2019 – March 2024.
7. "MRI: Acquisition of an NMR Spectrometer to Sustain Excellence in Undergraduate Research," (**Paul Bonvallet, Lead PI**; Judith Amburgey-Peters, Spring Knapp, Mark Snider, Sarah Sobeck co-PIs; Michael Peterson, Senior Personnel) National Science Foundation Major Research Instrumentation CHE-1626088, \$343,697; Jul 2016 – Jun 2019.
6. "REU Site: Physics and Chemistry Research at Wooster," (John Lindner, Susan Lehman, PIs; **Paul Bonvallet**, Niklas Manz, and Cody Leary, Senior Personnel) NSF-REU, \$287,892; April 2016 – March 2019.
5. "Exploring the Controllable Uptake and Release of Pyridinium Ions with a Photoactive Calixarene-Capped Azobenzene," (**Paul Bonvallet, PI**) American Chemical Society Petroleum Research Fund, \$65,000; May 2012 – Aug 2016.
4. "Design and Synthesis of a Photoresponsive Metallo-supramolecular Polymers," (**Paul Bonvallet, PI**) NSF-ROA (Research Opportunities Award), \$20,748 for research leave at Case Western Reserve University in 2010-2011 academic year.
3. "MRI: Acquisition of an LC/MS/MS to Enhance Undergraduate Research and Teaching," (Melissa Schultz, Paul Edmiston, and Mark Snider, co-PIs; **Paul Bonvallet** and Catherine Fenster, Senior Personnel) National Science Foundation Major Research Instrumentation, \$226,115; Aug 2008 – Jul 2011.
2. "Acquisition of an Isothermal Titration Calorimeter," (**Paul Bonvallet, Lead PI**; Mark Snider, and Donald Jacobs, co-PIs; Judith Amburgey-Peters, Senior Personnel) National Science Foundation Major Research Instrumentation CHE-0619123, \$91,090; August 2006 – July 2009.
1. May 2005: "The Synthesis, Characterization, and Supramolecular Properties of a Light-Emitting Polymer," (**Paul Bonvallet, PI**) Research Corporation Cottrell College Science Award, \$36,232; May 2006 – April 2008.

OTHER EXTERNAL RESEARCH PROPOSALS (DECLINED)

11. Aug 2014: "REU Site: Cutting-Edge Science in a Close-Knit Community," (Susan Lehman and John Lindner, co-PIs; **Paul Bonvallet**, Shila Garg, and Cody Leary, Senior Personnel) NSF-REU, \$290,319.
10. Aug 2013: "REU Site: Interactions between Chemicals and their Environments: From Nanoscale to Ecosystems," (Melissa Schultz and Paul Edmiston, co-PIs; **Paul Bonvallet**, Karl Feierabend, and Sarah Sobeck, Senior Personnel) NSF-REU, \$273,492.
9. Feb 2013: "MRI: Acquisition of a LC/Q-ToF MS to Enhance Undergraduate Research and Teaching," (Melissa Schultz, Paul Edmiston, and Mark Snider, co-PIs; **Paul Bonvallet** and James West, Senior Personnel) NSF-MRI, \$494,685.
8. Aug 2012: "REU Site: Interactions between Chemicals and their Environments: From Nanoscale to Ecosystems," (Melissa Schultz and Paul Edmiston, co-PIs; **Paul Bonvallet**, Karl Feierabend, and Sarah Sobeck, Senior Personnel) NSF-REU, \$273,492.
7. Mar 2007: "Supramolecular Color Tuning of a Light-Emitting Polymer," (**Paul Bonvallet, PI**) American Chemical Society Petroleum Research Fund, \$50,000.
6. Jan 2007: "MRI: Acquisition of an LC/TOF-MS to Enhance Undergraduate Research and Teaching," (Melissa Schultz, and Paul Edmiston, co-PIs; **Paul Bonvallet** and Mark Snider, Senior Personnel) National Science Foundation Major Research Instrumentation, \$239,921.
5. Feb 2006: "The STaRBURSTT – Cyberenabled Chemistry Consortium – CyberTools to Support Multinstitutional Collaborations in Organometallic NanoMaterials Research," (Co-PI) National Science Foundation Chemistry Research Instrumentation and Facilities: Cyberinfrastructure and Research Facilities, \$3,497,946.
4. May 2005: "Supramolecular Color Tuning of a Light-Emitting Polymer," Paul A. Bonvallet; American Chemical Society Petroleum Research Fund (duplicative proposal that was withdrawn after funding by Research Corporation), \$35,000.
3. Jan 2005: "Acquisition of an Isothermal Titration Calorimeter," (**Paul Bonvallet**, Mark Snider, and Donald Jacobs, co-PIs; Judith Amburgey-Peters, Senior Personnel); National Science Foundation / Major Research Instrumentation, \$85,000.
2. May 2004: "Incorporating Large Crown Ethers into PPV-Based Polymers for Supramolecular Complexation and OLED Fabrication," (**Paul Bonvallet, PI**) Research Corporation Cottrell College Science Award, \$34,030.
1. May 2004: "Encapsulation and Release of Small Organic Molecules by a Photoactive Calixarene" (**Paul Bonvallet, PI**) The Camille and Henry Dreyfus Foundation Startup Award, \$20,000.

INTERNAL RESEARCH AWARDS

William H. Wilson Funds to support scientific research

Acquisition of several pieces of laboratory equipment since 2005, totaling \$10,500

Howard Hughes Medical Institute (institutional grant to College of Wooster)

Support for 12 undergraduate summer research positions from 2005-2013

Acquisition of high-performance vacuum pumps for Organic Chemistry Laboratory (\$4,300)

Curricular grant to explore an undergraduate course in pharmacology (\$1,000)

Sophomore Research Program

Support for 20+ students to conduct research during the academic year

Support for multiple undergraduate research positions during the summer

Hewlett-Mellon Presidential Discretionary Fund for Institutional Renewal

Curriculum renewal in the Department of Chemistry (\$10,000)

Support of Pre-Health Advising Program (\$23,000)

ONGOING PROFESSIONAL ACTIVITIES

College Board Advanced Placement Program

Positions Held

2022	Assistant to the Chief Reader
2017–2021	Chief Reader: Establish and implement scoring practices for multiple AP Chemistry exams annually; serve on test development committee that writes questions and contributes to national curriculum; oversee scoring of 160,000+ exams nationally and internationally
2016	Chief Reader Designate: training for Chief Reader Position
2015–2016	Exam Leader: supervised the accurate, fair, and consistent scoring of alternate and international AP Chemistry Exams
2012–2014	Question Leader: supervised the accurate, fair, and consistent scoring of one question on an AP Chemistry Exam
various	Table Leader: supervised a group of Readers on the AP Chemistry Exam
2007–2009	Reader: scored AP Chemistry exams during the annual Reading

Leadership of AP Chemistry Presentations and Workshops

Local outreach to high school students and teachers (Wooster High School, Cleveland Central Catholic High School) about the design and scoring of Exam

Results and “lessons learned” debriefing on AP Chemistry Exam:

American Association of Chemistry Teachers, 2017-2020

AP Annual Conference, 2017-2020 (2020 cancelled due to COVID-19)

APTech, 2020

AdvanceKentucky, 2020

ChemEd biennial conference, 2017 and 2019

Biennial Conference on Chemical Education, 2018 and 2020 (2020 cancelled due to COVID-19)

Other AP Chemistry Activities

- Three-year project on AP Chemistry curriculum re-articulation
- ~5 weeks of travel per year for Test Development Committee (designing exams) and AP Reading (scoring exams)
- Convert an in-person Reading (scoring) to an online Reading for the 2020 and 2021 exams
- Meet with visitors (college teachers, high school principals, College Board trustees and officers) during Reading to describe exam structure and scoring
- Correspondence with high school teachers about curriculum content and scoring practices

External Professional Activities

Professional Research Review (Ongoing)

Regular reviewer of research proposals submitted to:

- ACS Petroleum Research Fund
- Research Corporation
- National Science Foundation
 - Course, Curriculum, and Laboratory Improvement (CCLI), including service as Panel Chair
 - Major Research Instrumentation (MRI)
 - Materials Research Science and Engineering Centers (MRSEC)
 - Partnerships for Research and Education in Materials (PREM)

Reviewer of manuscripts for:

- ACS Macro Letters*
- ACS Symposium Series (books)*
- Advanced Materials*
- Angewandte Chemie*
- Chemical Communications, Chemistry – A European Journal*
- Chemical Science*
- Chemistry of Materials*
- ChemPhysChem*
- Dalton Transactions*
- Journal of the American Chemical Society*
- Journal of Organic Chemistry*
- Journal of Physical Chemistry*
- New Journal of Chemistry*
- Organic Letters*
- Tetrahedron Letters*

One-Time Activities

External reviewer for faculty tenure / promotion decisions at three PUIs

Session chair, National Meeting of the American Chemical Society (Mar 2014)

Technical editor: *Organic Chemistry for Dummies* online version (Dec 2014)
Chemistry Workbook for Dummies (May 2015)

Participant, CUR Dialogues Conference (Feb 2013)

Textbook Manuscript Reviewer

Evaluated portions of an organic chemistry textbook (Pearson, 2019) and a general chemistry textbook (Pearson, 2010)

Participant, Proposal-Writing Workshops

- 2009: On-campus workshop with Thomas Blackburn (formerly with PRF)
- 2008: American Chemical Society Petroleum Research Fund, Washington DC

GLCA Academic Leadership and Innovation (GALI) Institute

Three-day workshop, sponsored by the Great Lakes Colleges Association, for faculty to explore issues in academic governance and decision-making at liberal arts colleges (Feb 2008)

External Reviewer for Undergraduate Research Projects

Kenyon College 2007

Workshop Participant, *Materials Science and Nanotechnology for Chemists*, Beloit College, WI (2005)

Internal Professional Activities

Current and Ongoing Involvement

Reaccreditation Steering Committee (group leader, 2022-present)

Led the creation of a detailed report on the quality, resources, and support of teaching and learning at the College of Wooster, as part of the institutional reaccreditation process with the Higher Learning Commission

Committee on Research and Study Leaves (2021-present)

Evaluated proposals from faculty applying for research or study leaves

Phi Beta Kappa (Kappa of Ohio Chapter)

Past service as President, Vice President, and Secretary

Academic Registration and Creative Horizons (ARCH) Summer Advising (2012-present)

Science Round Table, College of Wooster

Informal gathering of science faculty to discuss research and teaching in science. Have served as coordinator.

Campus Committee Service (Past)

Chair, Pre-Health Advising Committee (2007-2015)

- Interviewed and wrote committee letter for applicants to medical and other health-related professional fields
- advised students on course selection, admissions strategies, and internship opportunities
- met or spoke with prospective students interested in medicine
- organized workshops and internship opportunities for Pre-Health students

Committee to redesign course evaluations

Committee to evaluate transfer credit policies

Committee on Conference with Trustees (2011-2015, two years as Chair)

Biochemistry and Molecular Biology Curriculum Committee

Human Subjects Research Committee

Honorary Degrees Committee

Upperclass Programs Committee

Writing Committee / Writing Advisory Board

One-Time and Past Activities

Chair, Department of Chemistry, The College of Wooster (2016-2020)

Faculty search committees to staff various positions in Department of Chemistry, Department of Communication, and Science Librarian. Search committee chair on many occasions.

Departmental Liaison with various offices including Admissions, Libraries, and I.T.

Critical Writing Assessment

Faculty panel to establish and implement an assessment rubric for student writing samples (May 2009)

Participant, Workshop on Entrepreneurship

Workshop, sponsored by the College of Wooster Center for Entrepreneurship, for faculty interested in pedagogical activities, new courses, and novel strategies centering around entrepreneurship (Jan 2009)

Faculty advisor to Chemistry Club (2005-2009)

Coordinated speakers, fundraising, outreach presentations in local schools, and preparation of annual report to the American Chemical Society national organization.

CNSI Outreach Committee, California NanoSystems Institute, Los Angeles (2002-2003)

Developed experiments for Los Angeles high school teachers to incorporate the principles of nanoscience into their classes. Featured in *Chemical and Engineering News*.

Participant, Preparing Future Faculty Seminar, University of California, Los Angeles (2002-2003)

Professional Activities – Teaching and Pedagogical Development

Courses Taught Regularly

General Chemistry I
 General Chemistry II (with lab)
 Organic Chemistry I (with lab)
 Organic Chemistry II (with lab)
 Advanced Organic Chemistry / Advanced Organic Synthesis
 Introduction to Independent Study (seminar for development of Senior Independent Study research project)
 Senior Independent Study (yearlong self-designed research project for every senior)

Other Courses

Environmental Chemistry (once, on a team-taught basis)
 First-Year Seminar in Critical Inquiry (reading, writing, and evaluating different viewpoints and disciplinary perspectives)

Course topics:	2008	Skepticism and Belief of the Paranormal
	2012	Alcohol, Tobacco, and Firearms
	2018	Winning and Losing
	2022	Winning and Losing

Innovations in the Classroom

Ongoing support and use of the STEM Zone, a center for collaboration and drop-in assistance for students enrolled in introductory-level science and mathematics courses.

“Semi-flipped” approach to classroom instruction – students complete reading assignment and solve online homework problems before class. Class time is spent on illustrative examples, clarification, and application of concepts.

Peer learning activities – students collaboratively solve problems in small groups.

Early introduction of spectroscopy in Organic Chemistry I – students can use IR/NMR in the laboratory and use spectroscopic evidence to support foundational concepts.

Open-ended experiments in Organic Chemistry I Lab – students perform multi-week projects rather than “cookbook” experiments. They get to decide timeline and plans for implementation.

Course-embedded research projects in Organic Chemistry II Lab – in first half of the semester, students create materials that will be used in faculty research. In the second half, students design and carry out their own multi-step synthesis.
