

CURRICULUM VITAE

PAUL L. EDMISTON

Professional Preparation:

Pepperdine University University of Arizona	Chemistry Chemistry/Biochemistry	B.S. 1993 Ph.D. 1997
--	-------------------------------------	-------------------------

Academic Appointments:

Theron and Dorothy Peterson Professor of Chemistry Associate Professor of Chemistry, College of Wooster Assistant Professor of Chemistry, College of Wooster Camille and Henry Dreyfus Fellow, College of Wooster	2010- 2005-2010 1999-2005 1997-1999
--	--

Sabbatical Appointments:

Visiting Scholar, The Ohio State University, Dr. Umit Ozkan Lab Research Fellow, Georgia Tech Research Institute	2013-2015 2009-2012
---	------------------------

Non-Academic Positions:

Chief Science Officer ABS Materials, Wooster, Ohio	2008- 2016
---	------------

Awards:

Popular Mechanics, Breakthrough of the Year, 2011.
NorTech Gold Metal for Advanced Materials, 2010
MIT Clean Energy Prize, Clean Hydrocarbons. 2009
National Science Foundation CAREER Award, 2003
Society of Applied Spectroscopy Graduate Student of the Year Award, 1997
American Chemical Society Fellowship, Analytical Division, 1996
Tomas Hirschfeld Scholar Award, FACSS, 1996.

Publications: 56 since 1993; 25 since 2012

Awarded Patents: 13

Research Grant Funding: \$5.3 million since 1999 (PI or Co-PI awards)

Professional Boards and Committees:

National Science Foundation Advisory Committee (CHEM): Nexus of Water and Agriculture.
August 2013-July 2014
U.S. EPA Technical Advisory Board for Analytical Methods to Monitor Drinking Water
Impacts of Hydraulic Fracturing, 2013.
National Science Foundation Committee of Visitors (IIP). April 2013.
National Science Foundation Water Remediation Proposal Review Panelist. Dec 2010.
National Science Foundation Committee of Visitors (CHEM). February 2004.
American Chemical Society Analytical Chemistry Graduate Fellowship Committee,
2000-2021, Co-Chair
Pfizer Graduate Travel Grants Committee: Division of Analytical Chemistry, American
Chemical Society, Chairperson 2002-2008.

Professional Organizations:

American Chemical Society

Publications: * denotes undergraduate student

Invited Seminars and Conference Presentations (Past 12 years):

- SERDP Webinar Series. “Field-Ready PFAS Passive Sampler Calibrated to EPA 1633 Analytes” August 2023
- “Passive Sampler for the Time-Integrative Measurement of Per- and Polyfluoroalkyl Substances in Water, SETAC North America Conference November 2022.
- 2022 Emerging Contaminants in the Environment Conference, “Elucidating the Mechanisms of PFAS Adsorption by Varying Sorbent Surface Chemistry” March 2022
- SERDP & ESTCP Symposium, “Elucidating the Mechanisms of PFAS Adsorption by Varying Sorbent Surface Chemistry” December 2021
- BASF Scientific Innovation and Interaction Seminar, BASF North America, “Adsorption and Encapsulation Using Mesoporous Organosilica that Swells”, Detroit, February 2020.
- From Oceans to Clouds: The Environmental Chemistry of Water. Graduate Student Symposium – Presidential Event. “Per- and Polyfluoroalkyl Substances (PFAS) in the Environment: Lessons Learned from Studying Adsorption to Porous Solids. ACS National Meeting, San Diego, CA, September 2019
- University of Illinois, Sustainable Technology Center, “Removal of Perfluoroalkyl Substances (PFAS) from Water Using Tailored and Highly Porous Organosilica Adsorbents” March 2019.
- American Chemical Society Meeting National Meeting Presentation: Removal of Perfluoroalkyl Substances from Water Using Molecularly Engineered Coatings on Sand and Silica San Francisco, CA April 2017
- “Combining Forces: Enhancing Function Through Chemomechanical Hybrid Materials” Indiana University-Purdue, Fort Wayne, IN March 2016.
- The U.S. Algal Toxin Conference 2015. “Testing of new filter media to remove undesired molecules produced by Algae: Osorb media products for the Selective Removal of Microcystin” Akron, OH April 2015.
- SERDP Technical Exchange Conference, “Multipurpose Sediment Passive Sampler with Improved Tissue Mimicry to Measure the Bioavailable Fraction” Norfolk, VA March 2015.
- American Chemical Society National Meeting. Biotechnology Division “Extraction of Small Molecule Solutes Using Biocompatible Organosilica that Swells”. Oral. Dallas, March 2014.
- Swellable Organosilica Composite as a High Capacity Sorbent; Department of Chemical Engineering, Michigan State University, July 2014.
- Chemomechanical Solids Comprised of Hybrid Organic-Inorganic Materials Goodyear Tire and Rubber Co., July 2014.
- Bridged Polysilsesquioxane for Water Purification and Catalyst Supports; Leading Edge Conference on Water and Wastewater Technologies, Abu Dhabi, UAE, May 2014.
- University of New Hampshire, Department of Engineering. “Use of Organosilica Sorbents for the Enhanced Performance of LID Stormwater Systems.” Invited Seminar, February 2014.
- Edmiston, P.L.; Yang. “Sorbent Enhanced Bioswales for Treatment of Urban, Industrial and Agricultural Runoff” National Nonpoint Source Monitoring Conference. October 2013.
- Edmiston, P.L.; “Highly Swellable Glass Composite Materials for In situ Groundwater Remediation and Proppants” Goldschmidt 2012, Montreal, Canada.

- Edmiston, P.L. ACS Presidential Symposium on Ensuring the Sustainability of Critical Materials and Alternatives. “New Tools in the Water Technology Toolbox: Swellable Organosilica for the Reversible Extraction of Organics and Metals” American Chemical Society National Meeting, Philadelphia August 2012.
- Lubrizol Innovation Week, Plenary Speaker, Cleveland, September 2012 “Discovery Process in the Chemical Sciences” (Talk on innovation to 200 scientists at Lubrizol, and billion dollar specialty chemical company.)
- Edmiston, P.L.; Pickett, D. “Osorb: A new platform technology for water purification” World IUPAC Meeting, San Juan, Puerto Rico, July 2011.
- Edmiston, P.L. “The ACS Graduate Fellowship: Past, Present, and Future.” PITTCON, Orlando, FL March 2012.
- Edmiston, P.L. Varga, M. Curtze, A. “Versatile catalyst supports that use swellable, highly tensioned organosilica materials to pre-concentrate reagents in nanoscale pore architectures.” ACS Conference, San Diego, CA March 2012.
- Edmiston, P.L.. “Swellable glass materials for solvent-free capture and release of lipids from algae biofuel feedstocks.”, ACS Conference, San Diego, CA March 2012.
- Edmiston, P.L.. “Low energy biofuel separations and the story of Osorb®.”, ACS Conference, San Diego, CA March 2012.
- Edmiston, P.L. “Pilot Scale Testing of Swellable Organosilica-Nanoparticle Composite Materials for the In Situ and Ex Situ Remediation of Groundwater Contaminated with Chlorinated Organics.” Federal EPA Roundtable: Innovative Technology, May 2010.
- Edmiston, P.L. “Water remediation using organosilica-based materials and nanoparticle composites that swell in the presence of organic contaminants.” ACS Spring Meeting 2010.
- Edmiston, P. L. “Simplified method to extract biofuels from aqueous mixtures using organophilic silicas that rapidly and reversibly swell.” ACS Spring Meeting 2010.

2. US patent 8,367,793 (2009) “Swellable materials and methods of use.”
3. US patent 8,119,759 (2010) “Swellable sol-gels, methods of making, and use thereof”
4. US patent 8,217,131 (2011) “Method for extracting a metal particulate from an aqueous solution using a sol-gel derived sorbent.”
5. US patent 8,563,649 (2011) “Method of treating a material using a sol-gel derived composition”
6. US patent 8,703,895 (2011) “In-situ method and system for controlling the flow of an organic liquid”
7. US patent 8,754,182 (2011) “Sol-gel derived sorbent material containing a sorbate interactive material and method for using the same”
8. EP2601127. “Method and system for applying force against a solid object using a swellable sol-gel derived mater.
9. US patent 9,144,784. (2012) “Sorbent material and method for using the same.”
10. US patent 9,440,869 (2013). “Sol-gel derived compositions.”
11. US patent 10,881,598 (2021) “Method of using personal and home care compositions containing a sol-gel derived material”
12. US patent 11,471,859 (2022) Treatment and regeneration system and method for extracting organic solutes from-water.
13. US patent 11,650,138 (2023) “Passive Sampler”
