Our Mission

The College of Wooster is a community of independent minds, working together to prepare students to become leaders of character and influence in an interdependent global community. We engage motivated students in a rigorous and dynamic liberal education. Mentored by a faculty nationally recognized for excellence in teaching, Wooster graduates are creative and independent thinkers with exceptional abilities to ask important questions, research complex issues, solve problems, and communicate new knowledge and insight.

Graduates of The College of Wooster demonstrate these personal and intellectual capacities:

- Independent Thinking
- Integrative and Collaborative Inquiry
- Dynamic Understanding of the Liberal Arts
- Effective Communication
- Global Engagement
- Justice, Civic and Social Responsibility

BENEDICTION

The Reverend Enikő Ferenczy, Ph.D.

Rev. David A. Rice, Trustee

Rev. David A. Rice is pastor at First Presbyterian Church of Wooster and a member of The College of Wooster Board of Trustees. He grew up in Taiwan as a son of Presbyterian missionaries.

Rev. Rice is a former professional opera singer, performing in regional opera houses and concert halls across the U.S. and at the opera house in Wuppertal, Germany, and as a guest artist in other German opera houses from 1989-96. He earned a bachelor's in music and theater from North Park University in Chicago, and a Master of Music in voice performance from Northwestern University.

After being called to ministry in the late 1990s, Rev. Rice earned a Master of Divinity from Columbia Theological Seminary. From 2000-2014, he was pastor and head of staff at First Presbyterian Church in Anniston, Alabama. He was named pastor and head of staff at First Presbyterian Church of Wooster in April 2014.

He is married to Karolyn, a musician and piano teacher, and they have two sons: Brendan, living and working in Rome, Italy, and Brian, who is working for Texas Tech University in Dallas, Texas.

Darius Scott Dixon '13 pka "DIXSON"

Darius Scott Dixon '13, known as "DIXSON" professionally, is a singer, songwriter, and producer who plays 11 instruments. He stepped into the national spotlight in 2016 as part of Pharrell's team on NBC's *The Voice*. Shortly after he left the show, he was signed by record label Roc Nation and has since collaborated with notable musicians, including Kim Burrell, Peter CottonTale, Chance The Rapper, Vic Mensa, Pharrell Williams, and Beyoncé Knowles-Carter. He also more recently worked with Justin Bieber on the acoustic version of the hit track, "Holy." And in 2021, he wrote and produced his first solo album with Roc Nation, entitled *Darling*, releasing singles such as "Summertime.Fin," "Aura," and "BIG BRAVE MAN"—a song dedicated to his father who passed away in 2019.

In 2022, DIXSON received an Oscar nomination in the Best Original Song category for the music and lyrics of "Be Alive" from the motion picture *King Richard*, alongside Beyoncé. The song plays during the credits for the film that focuses on the story of the father of tennis superstars Venus and Serena Williams.

A Posse Scholar from Atlanta, DIXSON graduated from Wooster in 2013, with a self-designed major in arts and media management. While at Wooster, he was part of several ensembles including the Wooster Chorus, The Wooster Fragments, the Wooster Jazz Ensemble, and he served as the music director of his on-campus band, Freddie Cool. In 2010, he became a brother of Xi Chi Psi and also a member of the Black Student Association. In 2011, DIXSON studied abroad in Paris, concentrating in French business and fashion merchandising. As a student, he held internship roles at MTV, The National Conference of Black Mayors, and was a founding team member of the streetwear brand, KITH.

He began his senior year at the peak of the SoundCloud era and worked with advisor Denise Bostdorff, professor of communication studies, to complete an Independent Study that examined how film can be used to instruct independent music artists on branding and promotion, including a short documentary called *The Grey Area*, a compilation of interviews with independent music artists, music industry executives, music producers, songwriters, and entertainment lawyers sharing his passion for educating independent music artists on the best practices in promotion and branding.

Rev. Enikő Ferenczy

Rev. Enikő Ferenczy, Ph.D., serves as Pastor of Westminster Presbyterian Church, church in residence at The College of Wooster. She loves exploring the intersection of faith and public life both in her ministry and personal life. A former chemical engineer called into ministry, Ferenczy brings experience in interfaith grassroots justice ministry, teaching in a variety of contexts, and work with refugees. She developed and led a refugee integration program within the Reformed Church in Hungary and did her Ph.D. research on the church's engagement with refugees and migrants. She was also a participant in WCC's Ecumenical Accompaniment Programme for Palestine and Israel (EAPPI) and is a passionate advocate for reconciliation in the region. Ferenczy loves the outdoors, especially hiking around waterfalls. She grows a lot of hot peppers and is ready to lead you through culinary experiments.

Ferenczy holds a chemical engineering degree from the University of Babes-Bolyai in Cluj, Romania, and earned her Master of Divinity and Ph.D. degrees from Union Presbyterian Seminary in Richmond, Virginia, where she also served as the international student advisor. "Beyond Borders: Toward a Migration-Conscious Theology of Mission for the Reformed Church in Hungary," is the title of her dissertation.

A tribute to Teague Curless '22

Teague Curless, a member of this year's graduating class who passed away this past fall, is remembered as an exceptional student, and wonderful peer and friend to many.

From Lexington, Kentucky, Teague was the son of Peter and Mindy (North) Curless. At Wooster, Teague double majored in mathematics and physics with near a 4.0 GPA. Teague was passionate about nonlinear dynamics and studying patterns and had expressed plans to pursue an advanced degree. He is remembered by his advisors as "thoughtful, funny, and creative" and "intrigued by many things."

In addition to excelling in the classroom, Teague worked as a tutor and teaching assistant in the physics department and served as a STEM Zone intern, supporting the academic success of introductory STEM students from underrepresented groups. He enjoyed the process of learning and deeply believed in thoroughly understanding the fundamentals of mathematics and physics. Although he ultimately wanted to pursue engineering, he felt that a strong theoretical background and liberal arts education were very important for his development. Teague was excited and ready for his senior year at Wooster and planned to study engineering at Washington University in St. Louis. Teague cared deeply for the world's welfare, and he hoped to develop climate technologies that supported high-risk global regions in his career.

Teague's passions stretched beyond academics. He also enjoyed reading, playing video games with friends, watching thought-provoking movies, and pondering all ideas (big and small). For those who knew him, Teague was loud, convicted, and creative. His energy was undeniable. Teague's friends were important to him, and his family is extremely grateful for their role in supporting him. He highly valued his meaningful relationships with his teachers and professors, who helped shape his interests and hone his ideas. Teague is deeply loved; he and his future contributions to our society will be sorely missed.

The Latin Honors

A widely recognized academic distinction, Latin Honors are based on overall grade point average in courses taken at the College: summa cum laude for 3.900 to 4.000, magna cum laude for 3.750 to 3.899, and cum laude for 3.500 to 3.749. To graduate summa cum laude, a student must also receive honors on the Senior Independent Study.

Academic Regalia

The gathering of The College of Wooster family is the expression of a living tradition. The wearing of caps and gowns is an English custom which goes back to the twelfth century and is still used in many nations today. Over the years the apparel of scholars has evolved to differentiate the degrees of learning and areas of study. From the gown, cap, tassel, and hood, it is possible to distinguish the institution from which the wearer graduated, the field of learning in which the degree was earned, and the level of degree: bachelor's, master's, or doctor's.

Gowns, which are typically black but are frequently quite colorful, fall in straight lines from a fairly elaborate yoke. The level of degree is indicated by the cut of the gown. The bachelor's gown is relatively simple with bell-shaped sleeves. The master's gown is somewhat fuller, and its sleeves are longer and squared at the ends. The doctor's gown has velvet panels down the front and around the neck, and the bell-shaped sleeves are decorated with three horizontal velvet bars.

Caps may be either mortarboard or tam in style, though generally the tam is reserved for doctoral degrees. The tassel may be the color of the major field of learning in which the degree has been granted, or the tassel may be black for any degree. Gold tassels are worn only by doctors.

The hood is the most distinctive and colorful part of the academic regalia. Hoods are lined with silk in the colors of the institution granting the degree. The color of the velvet binding on the hood designates the discipline in which the degree is held – white for Arts, Letters, and Humanities; green for Medicine; pink for Music; dark blue for Philosophy; golden yellow for Science; scarlet for Theology, etc. The hood shows by its size, width of trimming, and shape the level of the highest degree held. Of the three hood styles, the doctor's is the most elaborate. The bachelor's hood is rarely used, and doctor's hoods are slightly longer than master's degree hoods.

Colleges and universities often add their own traditions to the gown. At Wooster, a single old gold cord indicates departmental honors. Black and gold cords indicate Phi Beta Kappa membership. Kente stoles symbolize the rich history of domestic students of color, and the country flag stoles represent the home country or identity of graduating seniors. Lavender stoles acknowledge achievements and contributions of lesbian, gay, bisexual, transgender, queer, intersex, asexual (LGBTQIA+), and ally students to the College.

Flowers for the 2022 Commencement have been given in memory of *Esther Mae Graber* '34, Director of Food Service from 1947 to 1970, and at the time of her retirement in June 1977, manager of The Wooster Inn.
